How to get disaster and crime prevention information

Accessible from your PC

Hirakata City website

(1) Home page

www.city.hirakata.osaka.jp (in Japanese)

In the event of a large-scale disaster, we will change our home page for disaster prevention purposes and provide links to a variety of information sites.

(2) Disaster Information page

www.city.hirakata.osaka.jp/site/hirakata-saigaijyohou (in Japanese)

This page contains disaster prevention information to assist you on a daily basis, as well as providing links to the various disaster prevention sites.

Osaka Disaster Prevention Net

Osaka Disaster Prevention Mail

Notice in real-time such as earthquakes and typhoons of information

Information on earthquakes and typhoons, etc., is available in real time.

Issues a wide range of disaster prevention information such as on the status of the weather, earthquakes, tsunamis, typhoons and rivers in real time via email to your mobile phone.

Register using this QR code or by sending a blank email to touroku@osaka-bousai.net.

Hirakata Anzen-Anshin (Safety & Security) Mail

Register with an QR code!

Hirakata City transmits its own independent information, including that on suspicious persons and crime prevention campaigns, as well as on the status of earthquake conditions. Register using this QR code or from the Hirakata City website.

"Area Mail" & "Emergency Alert Message"

Check information in the email on your mobile phone

NTT DOCOMO, au and Softbank carriers will send out emergency earthquake information and evacuation information via email to your mobile phone. They will distribute the emergency information that Hirakata City broadcasts.

Note: Prior registration is not required, but some setting may be required even on compatible phones in order to receive this information.

Contact your mobile service provider for details.

Telephone answering service

The content of Disaster Preparedness Broadcasts during an emergency can be confirmed through this telephone answering service.

Telephone: 0120-35-1221

During busy times, it may be difficult to get through. In that case, check the city's website where the content of broadcasts will be posted.
